

IEPM Welcomes Three-C Electrical Company

Augusta power engineering firm becomes member of association

(Augusta) – June 26, 2009

The Independent Energy Producers of Maine welcomed today Three-C Electrical Company as a member of the Augusta, Maine based trade association.

Three-C Electrical Company, Inc. is one of the largest independent power system service providers in New England with a local office in Augusta, Maine. Since 1971, Three-C has provided emergency service, installation, commissioning, testing, maintenance, and engineering for electrical power equipment. According to Dan Boudway, Manager, “Experienced engineers and technicians focus on providing safe, reliable and efficient power supply. Systems expertise includes all major power system components for electric utility transmission and distribution substations, power generating facilities, industrial manufacturing, large commercial facilities and municipal utilities.” Three-C is also the only fully-certified NETA member in the state of Maine. For more information, visit www.three-c.com.

“We are delighted Three-C has joined the IEPM membership, and believe they will offer vital assistance and over 35 years of experience to Maine’s growing renewable power industry,” said IEPM Executive Director Jeremy Payne.
